

WIND SOCKS

Windssocks are used to tell wind speed and the direction of the wind speed itself. Windssocks typically are used at airports to indicate the direction and strength of the wind to pilots and at chemical plants where there is risk of gaseous leakage. They are sometimes located alongside highways at windy locations.

SPECIFICATION

Material : Hypolan Coated Nylon
Color : Flourescent Orange

COMPONENTS

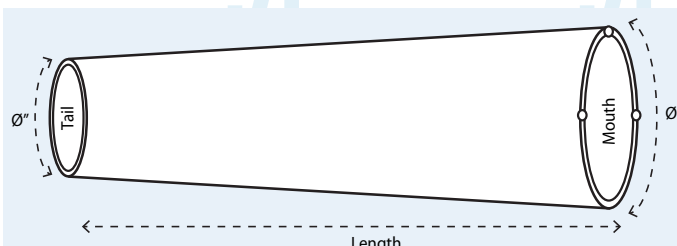

- Stainless Steel Ring
- Flexible SS wire rope harness
- Swivel snap clip

OPTIONS

Logos and corporate names can be directly printed

Mouth	Tail	Length
14"	10"	36"
15"	8"	48"
-	-	-

Doc. Control:	Rev.: 3.2	Date: April 13, 2016
