

FIELD WINTER JACKET

Article No.: 0380PL50-FWJ

Parma™ FR Cotton Workwears offers a high level of protection to welders without being as heavy as the leather alternative. This can be an advantage on worksites with high temperature & humidity levels. Constructed using premium 100% cotton treated with Proban® blend. Parma™ features flame-retardant properties, thermal protection, comfort and durability that meet industry workwear regulations.

Aspis® FR is a durable, lightweight and comfortable flame retardant fabric with the advantages of the superior breathability and absorbency of 100% cotton. **Aspis® FR** is particularly suitable for use in warm working environments and climates including summer season.

A multi-layer wind proof breathable Winter Jacket, with properties of inherent heat & flame retardant. This garment is a preferred choice of people working from the oil & gas, petrochemical, refinery industries, as well as an excellent choice for electric and power generation industries.

Inherently flame resistant – FR properties are built in and won't wash or wear out.
Comfortable to wear - Soft & breathable. Roomy sizing patterns allow for a great fit.
Exceptional durability – Outstanding laundered appearance - Fabric retains its like new look and maintains permanent pressed appearance.
Excellent Value – Long life cycle & great durability.
